

# Get through the snow and ice with Snow Socks, from just £70

These innovative tyre covers increase grip on snow and ice. Affordable and easy to use, they provide the perfect temporary solution to help you get off slippery roads and back onto cleared roads.

When you run into snow or ice, to prevent you getting stuck, stop and get the Snow Socks out of your boot.

They're quick and easy to fit, and once you're moving again, you'll be secure in the knowledge that you have extra traction while you drive.

When you get back to cleared roads, simply remove, and pop them in your boot. As they're reusable, and machine washable, you'll find they're always there when you need them.

**Don't get stuck without them. Drop in to the dealership today and make sure you're prepared.**

\*Subject to availability. Call the dealership to reserve a pair in the correct size for your vehicle. Four snow socks are recommended on four-wheel drive vehicles.
